AFFIDAVIT OF Maricela Reyes

State of California

Los Angeles County

I, Maricela Reyes, attest that my statements are true to the best of my knowledge.

Comment round for ET Docket No. 03-137 and WT Docket No. 12-357.

1. My name is Maricela Reyes. My address is 1423 w. Lingan Ln. apt. #1 Santa Ana Ca. 92704
2. Soy una madre preocupada por la Comunidad Latina, en que nuestro hijos lleguen a estar ocupando un asiento en una Universidad. Queremos hacer la diferencia para estar al nivel anglosajón. Pertenezco al Programa de Padres Promotores en donde diariamente estamos compartiendo información a los padres para que apoyen a sus hijos y estén al pendiente de su educación.
3. I was shocked to learn that RF Guidelines have been set without the benefit of credible studies performed on the health impact to humans, animals, and environment relative to RF impact.
4. Yo tengo 4 hijos el mayor tiene 16 años, el segundo 13 y los dos menores 10 y 7. Estoy dentro del programa Padres Promotores de Educación desde hace 3 años dando la información a más de 10 familias por mes.

5. Nosotros hablamos con familias sobre el Sistema Educativo dentro de Santa Ana Ca. para que puedan ayudar a sus hijos y aprendan como se leen las boletas de calificaciones y que necesitan en cada grado para que ellos apoyen a sus hijos y podamos tener en esta comunidad más jóvenes graduados de la preparatoria.
6. There are compelling arguments supporting the FCC modify RF Guidelines mandating inclusion of credible studies performed on the health impact to humans, animals, and environment relative to RF impact, and that those guidelines work to prevent or minimize negative impacts.
7. Over two (2) million viewers/subscribers have seen and/or read about the positive impact One Million NIU has had on families and community relative to empowering NIU's (New Internet Users) to early adaption of on-line resources for improved quality of life.
8. The documentary by James Russell, [Resonance – Beings of Frequency](#)(Nov2012) explains well the impact RF waves have on the very existence of life and how the Earth's magnetic field's share space with RF waves. They must co-exist, to stymie the Earth's delicate balance of these waves threaten the very existence of life. Such hypothesis warrants inclusion in considering RF Guidelines.
9. Dr. Roger Coghill, Bioelectromagnetic research, “the radiation environment has increased many millions of times from what it was 30 years ago.” Understanding the impact of this “million times increase” is worthy of consideration into the writing of RF Guidelines, as it is hypothesized to have negative health impacts.

Respectfully submitted by

Maricela Reyes
